

TOP — this edge comes out of the printer first

4x6 TEST LABEL

4 x 6 in (101.6 x 152.4 mm) · print at 100% / Actual size

1. 0 to 3 on the inch ruler measures exactly 3 in (76.2 mm).

Shorter means it was shrunk: set Scale to 100% (Windows: Actual size).

2. All four sides of the thin frame are printed.

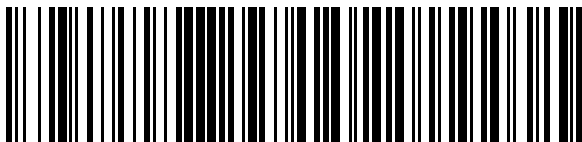

A side missing means margins in the paper size: set all four to 0.

3. TOP is at the edge that came out first, reading upright.

Sideways means the page or the print dialog rotated it.

4. The square is solid black and every line is unbroken.

Grey or gaps: raise print density, or clean the print head.
